Custom Solutions

Our designers approach every project as an 'original' and incorporate metals, woods, fabrics, lighting and media into designs that once realized, beautify interior spaces and create **WOW-inducing** experiences at tradeshow and events.

Submit a custom rental project request and let us bring your ideas to reality!

We have what it takes to bring your *ideas* to reality.

The benefits

EXHIBIT RENTAL

Time Savings

Our rental displays are pre-built so the only time investment is in the design and printing of your graphics!

Cost Savings

Renting eliminates the need for a capital or marketing expense. Rent a high-quality booth without committing to full ownership. If you're new to trade shows or testing a new market, renting is a low-risk way to gauge results before investing in ownership.

Flexibility & Scalability

Every show is different. Rentals let you adapt your booth's size, layout, and graphics for different audiences, locations, and budgets. If your company is attending overlapping shows or needs different styles of booths, we can provide multiple setups simultaneously.

Convenience

Our displays include some of our most popular and trending, so you can showcase your brand with fresh, professional displays and designs. Lots to choose from! We have new rental options, and a full range of Inline & Island Kits as well as accents like Counters & Hanging Structures.
